that benefit the youth of the Basin through our Green Turtle Series. It was Pat Daugherty's vision that financial need should never prevent a child from participating in or attending arts activities.

We continue working on her mission, and last year, with your help, provided FREE and reduced cost outreach to thousands of children.

HELP KEEP PAT'S VISION ALIVE!

Ways your gift can be used:

- \$225 Pays for an in-school arts assembly (up to 600 students)
- \$750 Provides an in-school performance

PREMIERE SERIES

CARLENE CARTER FRI, OCT 5, 2018

GEOFFREY CASTLE SAT, DEC 8, 2018

Grammy nominated singer-songwriter Carlene Carter, daughter of country music legends June Carter and Carl Smith, stepdaughter of Johnny Cash, and granddaughter of "Mother" Maybelle Carter of the original Carter family started her career singing with her family at age 17 and continues to make new music while honoring the old in her own style.

Regional star, local favorite and holiday enthusiast Geoffrey Castle returns to the Columbia Basin for his Celtic Christmas Celebration! Castle will be returning to rock his electric violin with six dancers, a five-piece band, two opera singers and a partridge in a pear tree.

YAKIMA SYMPHONY FRI, FEB 1, 2019

ILUMIDANCE FRI, MAR 1, 2019

The Yakima Symphony Orchestra, in its 48th season and nationally recognized as one of the finest regional orchestras in the country. presents a program from its National Heroes season lineup, celebrating leadership, independence and heroism through music, including the Second Symphony by Jean Sibelius, the overture "My Homeland" by Antonin Dvo ák and is joined by Ellensburg cellist John Michel for the Cello Concerto No. 1 by French composer Camille Saint-Saëns.

Rainbow Dance Theatre transforms the stage into a world of mystery, pathos and humor by incorporating motion tracking technology that respond to the dancers in real-time during the performance. iLumiDance explores the interplay of light and motion to create striking images of literal and metaphorical life from its origins with the big bang, through the evolution of single-celled to multi-celled to increasingly complex organisms.
